

Article nr:
SMB-L22

Description:

This surface mount bracket can be used with an A1 lock with a backset of 30mm and 22mm Swiss cylinder.

With the SMB-L22 the lock is positioned LEFT of the striker plate.

It is possible to use the SE-22 security escutcheon in combination with this bracket. When this is not installed the CC-22 plate can be used to cover the holes.
