

Article nr:
SMB-R17

Description:

This surface mount bracket can be used with an A1 lock with a backset of 30mm and 17mm Europrofile cylinder.

With the SMB-R17 the lock is positioned RIGHT of the striker plate.

It is possible to use the SE-17 security escutcheon in combination with this bracket. When this is not installed the CC-17 plate can be used to cover the holes.
